# About ABDOS OILS

ABDOS Oils is a leading contract manufacturing company in the FMCG sector providing processing and packaging solutions in the home care, food and personal care categories. It evolved from having dedicated manufacturing solutions to including contract and private label manufacturing services in its strategy evolution.

Currently, it has one of the largest manufacturing sites in Indian with an annual capacity of over 40,000 tons in the personal care category and is working with various kinds of olive oils for 'Bertoli' and 'Figaro' in the food category.

It also boasts of an In House R&D team for product and process development for the clients with strategy evolution from Dedicated Manufacturing to Contract Manufacturing and Private Labels Manufacturing.

## Our Production Facilities

Our plants are equipped with advanced machinery that enables us to meet the diverse products requirements of our clients with the ability to handle flexible volumes.

- State of the art production and manufacturing facilities
- Strong and dedicated team who ensure constant improvements in the procedures and processes to meet all the requirements of the clients
- We boast a sophisticated Laboratory with all the required equipment for the testing and an experienced professional team to implement.

## Our Journey

- 1997**  
 Established as a unit for manufacturing and packaging of coconut oil, perfumed and pure, for Hindustan Unilever's brand Nihar.
- 2006**  
 Diversified into the food sector with the manufacturing and packaging of Olive oil for Deoleo (Spanish Company).
- 2013**  
 Entered the personal care segment by manufacturing shampoo sachets for Unilever under the brands Clinic Plus, Dove, Sunsilk & Tresemme.
- Early in 2020**  
 Set up of state of the art facility for detergent powders & bars along with dishwash bars with the capability to handle 5ku's ranging from smaller sachets to 10 Kg packs.
- Later in 2020**  
 We plan to manufacture liquid detergents, dishwash gel, toilet cleaners and surface and floor cleaners.

## Our Clients

We work with some of the best multinational companies with our decades long experience in manufacturing processes and handling high volumes.

## Our Quality Management System:

- LEAN BUSINESS PROCESSES**  
 Strong emphasis on continuous improvement through lean business processes with the engagement of employees at all levels.
- ASSURED QUALITY POLICY**  
 Aligning with the company's vision and objectives our assured quality policy has been integrated into our operations to continuously improve our processes while identifying and solving problems that arise on a day-to-day basis.
- STATE OF THE ART LABS**  
 Our labs are equipped with all the essential instruments for the testing of RM, PM and FG. Our microbiology laboratory helps to control the quality parameters for products during the shelf life and serves as a critical part to ensure all quality checks are made before any product is dispatched to the consumers.
